Design-in DRAM modules

Perfect memory solutions for system designer and builders

Kingston® offers a line of design-in DRAM modules created specifically for system designers and builders.

Built to JEDEC specifications (industry standard) featuring commercial temperature grade DDR3, DDR3L, DDR4 and DDR5 non-ECC unbuffered DIMM and SODIMM solutions¹.

APPLICATIONS / MARKET SEGMENTS

Point of sale (POS)

Digital signage

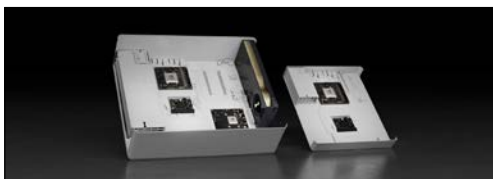

Robotics

Kiosk (charging stations, key makers, ATMS)

Surveillance/Mobile recording

Industrial computer

Medical diagnostic equipment

KEY BENEFITS

- Controlled BOM – Locked for consistency over product life (DRAM, PCB).
- PCN support – Product change notifications providing 90-day notice for end of life.
- Engineering support – Regional engineering support teams for fast response.
- Lifecycle management – Quarterly forecast-based with 8Q roadmap visibility.
- Failure analysis – Level 1/2 support.
- Warranty² - Backed by a five-year warranty and free technical support.
